

Love life.
Live life.
Give life.

... a life giving experience

The Anthony Nolan Trust takes back lives from leukaemia by managing, and recruiting new donors to the UK's most successful bone marrow register. We provide a **lifeline** to patients with bone marrow disorders like Leukaemia where there is no other hope of a cure. Our job is to help people in need and give them hope for the future so that they can go on and lead healthy normal lives. We desperately need more people to join the register.

3-year old Eva was diagnosed with a very rare form of leukaemia in November 2006. She is currently undergoing chemotherapy, but her only long-term chance of survival is to have a bone marrow transplant. Her mother said, "Someone out there is a match for Eva and they have a chance of being a life-saving hero by joining the Anthony Nolan bone marrow register."

YOU can help...

If you are aged between 18-40, in good health, weigh over 8st (51kgs), not severely overweight and willing to help save the life of any patient in need of a transplant, then you may be eligible to join the Anthony Nolan register.

To register your interest and receive your information pack please contact:

Kath.Kay@conocophillips.com

IF MORE THAN 20 PEOPLE REGISTER AN INTEREST, WE WILL BE ABLE TO HOLD A DONOR RECRUITMENT CLINIC AT YOUR WORKPLACE, SO PLEASE THINK SERIOUSLY ABOUT JOINING
